

SKU: STM800BSS4QEUI

the Tea Maker™

Product Description:

The Kettle That Makes Tea. Perfectly.

For the perfectly balanced brew, different teas need to be steeped at different temperatures and for different times. So how do you get it right?

This revolutionary kettle has a motorised basket that automatically lowers tea leaves into, and raises them out of, the water at precisely the right time. It has fifteen pre-programmed settings, plus fully variable temperature and custom controls. It even has a programmable start feature so your tea will be ready for you when you wake up. Detach the basket and it's a variable temperature, glass kettle.

Perfect Kettle. Perfect Tea.
