the Citrus Press™ Pro

Product Description:

The Ultimate Citrus Press

Citrus fruits come in all shapes and sizes. So how do you juice the smallest lime or the largest grapefruit without switching cones?

This Breville citrus press is designed to maximise juice yield from all types of citrus fruits. A uniquely finned and undulating cone extracts juice all the way to the rind, regardless of size. A pull down handle holds the citrus fruit on top of the cone at the optimum angle to avoid 'sticky fingers'. This citrus press also features a super quiet motor and easy to clean pulp filter.

Juicing is now sweeter than ever.
