

SKU: SBL920BSS2QEU1

the Super Q™

Product Description:

Commercial grade blender designed for the home kitchen. With the most powerful motor, pitcher recognition and noise suppression technology, the Super Q improves versatility and delivers an advanced texture optimisation for smoother & softer textures.

Super Quick and Powerful: With a powerful 2400 Watt motor, the Super Q has the highest possible motor rating. With 300km/h blade tip speed under load for quick results.

5 Touch Programs: One Touch programs feature optimised time/speeds to produce the tastiest results. Enjoy silkier dairy smoothies and smoother green smoothies thanks to the two smoothie programs. Turn ice into snow with pulse/ice crush, get creative with the frozen desserts function or make fast hot cold-to-hot soups easily with the soup one touch program.

12 Speed Settings: Easy selection and advanced texture optimisation for smoother & softer textures. Create natural nut butters, nut & bean milks, fresh cocktails, fine milled flour, creamy dips, rich sauces, zesty dressings and freshly ground spices.

Noise Suppression Technology: Imagine higher performance that's easier on the ear. The unique fan and motor technology reduce operating noise for an improved blending experience.

Pitcher Recognition: The Super Q features an intelligent base that automatically recognises the vessel and optimises performance, whether you use the 2 litre jug or the personal blending on the go cup.

Compatible With the VAC Q™: The Super Q is compatible with the Vac Q vacuum pump. By removing air from the jug before blending, the Vac Q provides a smoother texture, brighter colours and richer flavours to your blend. The Vac Q is sold separately included.

 Brushed Stainless Steel	SBL920BSS2QEU1 9312432033909

Product Technical Specs:

- **Construction Materials:** Brushed Stainless Steel
- **Capacity:** Jug - 2 Litres, Cup - 700ml
- **Settings:** 12 speed settings , 5 one touch programs
- **Accessories:** Recipe book, Tamper, Spatula
- **Voltage:** 220-240 Volts
- **Wattage:** 2400 Watts
- **Unit Weight:** 3.5 Kgs
- **Master Carton Weight:** 4.8 Kgs
- **Gross Shipping Weight:** 4.3 Kgs
- **Units per Carton:** 1
- **Shipper Dimensions (HxWxL):** 317 x 178 x 289 mm
- **Product Dimensions (HxWxL):** 294 x 132 x 172 mm
- **Display Box Dimensions (HxWxL):** 309 x 170 x 281 mm
