the Sage Boss™ To Go Plus

The key to the perfect smoothie is smoothness. Serrated central blades pull your ingredients down and a large curved sweeping blade pulverise whole fruits and vegetables, nuts and leafy greens into a smooth, velvety beverage. Remove the cafe tumbler, twist on a lid and you're ready to go.

KINETIX® BLENDING ACTION

Smoother smoothies - Kinetic® blade and bowl system achieves this by pulling ingredients down, and large curved sweeping blades that turn ingredients into tiny particles to create a super fine texture.

MILL & GRIND

Durable stainless steel grinding container to grind in batches for the freshest nuts, protein powders, seeds and spices.

SMOOTH EDGE TRITAN TUMBLERS

The unique Smooth Edge Tumblers have no sharp external threads or notches around the tumbler rim so you get a more enjoyable drinking experience.

SAGE ASSIST® LID

The unique ring pull design of the Sage Assist® Lid ensures the lid is easy to remove, yet sealed tight on the go.

COMPLIMENTARY RECIPE BOOK

Product Technical Specs:

- Sage's unique Kinetix Blade & Bowl for up to 42% finer particle size
- Smooth edge Tritan tumblers for a smoother drinking experience
- Heavy duty die cast base with 1000 watt motor
- Smooth Edge Tritan® cups with travel lids 1 x 700ml 2 x 500ml
- Durable Mill & Grind stainless steel mill
- **Voltage:** 220-240
- **Wattage:** 1000
- **Unit Weight (kg):** 3.6 kgs
- **Gross Shipping Weight (kg):** 10.5 kgs
- **Units per Carton:** 2
- **Shipper Dimensions (HxWxL mm):** 470x309x546 mm
- **Product Dimensions (HxWxL mm):** 389x151 mm
- **Display Box Dimensions (HxWxL mm):** 445x264x29 mm
- **Test conducted at University of Sydney, June 2015 using the same amounts of Kale and water. Results showed average particle sizes from the Breville Boss To Go as being up to 27% finer than the NutriNinja BL480 and up to 42% finer than the Nutribullet NBR-1207M (600w). Ingredients were blended for 60 seconds in all blenders and the "Ultra Blend" mode was used on the NutriNinja. The Breville Boss To Go may not produce finer results than all Personal Blenders on the market or when using different types of ingredients. Results will vary based on blending time and other variables.*
