

SKU: STA825BAL2QE1

the Smart Toast™ 2 Slice

Product Description:

A new world of bread needs a new world of toasting. So how do you toast any type of bread and get it just the way you like it?

The Smart Toast®, with motorised 'Fruit Bread™', 'Lift & Look™' and 'A Bit More™' automatically takes the guess work out of toasting times for different bread.

Using the elegant push button controls, the 'Fruit Bread™' setting adjusts toasting time to help prevent burnt toast. 'Lift & Look™' activates the motorised carriage to gently raise the bread just long enough to check if it's done. Press 'A Bit More™' and the carriage lowers once more to give it just that... a little bit more.

Follow toasting progress with the LED countdown indicator. Crafted with full die-cast construction, this toaster also includes automatic raising and lowering, crumpet and defrost settings.

One touch. Perfection.
