

SKU: SKE825BSS3QEU1

the Smart Kettle™

Product Description:

To extract the most delicate flavours, different teas need to be steeped at different temperatures. But how do you get it right without using a thermometer?

The Smart Kettle™ knows the ideal temperature for tea or coffee. Constructed with Stainless Steel and BPA free* materials, this kettle uses five pre-programmed temperature settings to tell you which temperature to select for which type of tea. Includes soft open lid to stagger hot steam and prevent hot water splash back while a 'keep warm' button can hold the water temperature for up to 20 minutes.

Tea never tasted so good.
